

**RE80 SELECTORIZED SERIES****RE8016 - LEG PRESS/HACK SQUAT****PRODUCT OVERVIEW**

Two machines in one - the ultimate lower body training solution. The innovative two-stage footplate and cushion adjustment system easily enables both seated leg press and supine hack squat training. Both seat and shoulder pads feature 9-position front/back adjustment, ensuring stable and precise training for all body types.

# SPECIFICATIONS & KEY FEATURES

## Specifications

Dimension	1983*1022*1602mm
Total Weight:	357kg
Weight Stack:	140kg
Max Weight Stack:	150kg

## Product Features

### Multi-Function Training, Lower Body Optimization

Innovative dual-function design enables seamless switching between seated leg press and supine hack squat, targeting all three major lower body muscle groups - quadriceps, hamstrings, and gluteus maximus - in one machine.

### Two-Stage Footplate, Leg and Glute Training Versatility

Optimized two-stage footplate angles with upper section focused on glute training and lower section emphasizing quadriceps. Different lower body movements combined with various footplate positions truly deliver multiple training benefits in one machine.

### Full-Range Adjustment, Universal Fit

Seat and shoulder pads feature 9-position front/back adjustment, backrest offers 5-position angle adjustment, accommodating all body types with ease. All adjustments can be completed single-handedly, saving energy for more focused, efficient training.

### Smooth Track, Fluid Contraction

The high-strength, extra-thick guide rails crafted with premium materials and expert workmanship deliver incredibly smooth movement with zero catching or friction. Every squat perfectly aligns with lower body muscle engagement, providing the ultimate contraction sensation.
