

RE80 SELECTORIZED SERIES
RE8020 - ABDUCTOR/ADDUCTOR

PRODUCT OVERVIEW

The ultimate solution for training inner thigh and gluteal muscles. Featuring arc-shaped movement patterns perfectly matching hip joint mechanics, quick-adjustment design enabling seamless switching between hip abduction and adduction exercises in just half a second. Multiple handle positions and range-of-motion quick-adjust lever ensure complete gluteal engagement. Machine resistance provided by fixed pulley plate system offering precise resistance with smooth plate ion.

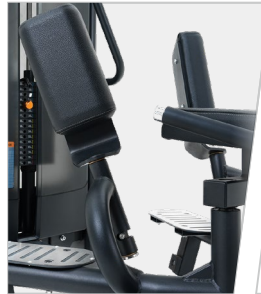

SPECIFICATIONS & KEY FEATURES

Specifications

Dimension	1536*730*1689mm
Total Weight:	246kg
Weight Stack:	105kg
Max Weight Stack:	117.5kg

Product Features

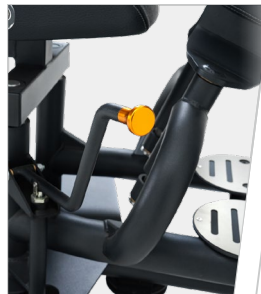

Hip Inside and Out, All Within Reach, Half-Second Transformation

Seamlessly switch between hip abduction and adduction exercises. Quick-adjust flip design enables adjustment with just a hand movement, saving time and effort. If you're passionate about "superset training," this feature will be your greatest delight.

Stability Enables Precision, Superior Support Drives Training Success

Masterfully crafted support cushions deliver exceptional stability and ergonomic support. 105° backrest angle and 70° knee support angle - optimal support angles derived from hundreds of experiments in the Insight biomechanics laboratory. Combined with one-piece molded high-density polyurethane foam, provides the most stable and comfortable support during movement.

Multi-Position Adjustment, Precise Muscle Targeting

Support handles and range-of-motion quick-adjust lever allow customization of body angle and movement range, targeting every detail of hip muscles. "Zero-slack resistance travel design" ensures immediate resistance engagement at movement initiation, making every rep solid and effective.

Quick-Adjust Precise Resistance, Nothing Is Impossible

Pulley precision weight system delivers authentic resistance feel with every kilogram of weight. "Seven-strand nine-line" high-strength steel cable with 9000N breaking strength provides lasting assurance for professional training.
