RE80 SELECTORIZED SERIES

# RE8026 - LAT PULLDOWN/SEATED ROW

PRODUCT OVERVIEW

The professional-grade solution for back training, featuring both lat pulldown and seated row training modes. With interchangeable handles enabling refined training variations and an extended seat design providing ample pre-stretch range for seated rowing movements, this machine allows maximum back muscle contraction and development.

Product Features

Dual-Function Training, Complete Back Development

Combining lat pulldown and seated row capabilities in one machine, targeting both back width and thickness. The seated position pulley and seat pad placement are ingeniously designed to accommodate users of all heights, ensuring every rowing motion becomes more precise and efficient.

Leg Stabilization Foam Roller, Comfort Without Pressure

The stabilization roller features high-density memory foam for comfortable thigh support with 4-position height adjustment, maximally accommodating all body types. Combined with the tubular footplate, it provides exceptional movement stability for users.

Extended Seat Pad, Maximum Pre-Stretch Range

The extended seat design provides ample pre-stretch range for seated rowing movements, enabling complete motion paths and allowing back muscles to achieve maximum stretch and contraction sensation.

Precision Weight Stack Engineering, Professional Training Assurance

Utilizing a high-density cast iron weight stack system with specialized black textured powder coating for premium feel. Special protective coating ensures wear and corrosion resistance, providing lasting durability for professional training. The weight distribution is precisely calibrated, with maximum weight reaching 125kg, allowing you to easily find that "perfect training weight" without compromising.
