## SA SELECTORIZED SERIES

SA002 - PECTORAL

PRODUCT OVERVIEW

An exceptional value choice! The bent-arm arc movement pattern perfectly simulates free weight fly movements while effectively reducing shoulder joint stress, focusing activation on the chest. The 5-position seat height adjustment perfectly accommodates users of all body types. The machine's weight distribution is precisely calibrated, allowing every user to easily find their ideal training resistance without compromise.

SPECIFICATIONS & KEY FEATURES

Specifications

Dimension:	1445*929*1566mm
Total Weight:	245kg

Product Features

Robust and Durable, Value-Optimized Choice

The main frame utilizes Q235A high-frequency cold-rolled steel, with 40*140mm square tubing and 50*100mm oval tubing working in harmony to ensure machine stability. Surface finishing employs electrostatic powder coating, passing over 800 hours of salt spray and impact testing. The finish is brilliantly aesthetic while the machine remains incredibly durable.

Natural Arc Movement Pattern, Safe and Effective

The innovative arc movement pattern perfectly simulates free weight fly movements. The bent-arm fly motion effectively reduces shoulder joint stress during exercise, focusing activation on the chest muscles. Particularly suitable for beginners, ensuring both training effectiveness and safety.

Smooth Seat Adjustment, Effortless Position Customization

The ergonomic seat features 5-position adjustment, making position changes effortless. This user-centric design allows every trainee to quickly find their optimal training position, enjoying a professional-grade comfortable training experience.

Precision Weight Stack Engineering, Professional Training Assurance

Utilizing a high-density cast iron weight stack system with specialized black textured powder coating for premium feel. Special protective coating ensures wear and corrosion resistance, providing lasting durability for professional training. The weight distribution is precisely calibrated, allowing you to easily find that "perfect training weight" without compromising.
