

**SA SELECTORIZED SERIES****SA007 - DIP PRESS****PRODUCT OVERVIEW**

The professional-grade solution for triceps training. The innovative flip-adjustable handles enable more refined training of both lower chest and triceps muscles based on user needs. 5-position seat adjustment perfectly accommodates users of all body types.

## SPECIFICATIONS & KEY FEATURES

### Specifications

Dimension:	1218*1656*1566mm
Total Weight:	255kg
Weight Stack:	100kg
Max Weight Stack:	125kg

### Product Features

#### Robust and Durable, Value-Optimized Choice

The main frame utilizes Q235A high-frequency cold-rolled steel, with 40\*140mm square tubing and 50\*100mm oval tubing working in harmony to ensure machine durability. Surface finishing employs electrostatic powder coating, passing over 800 hours of salt spray and impact testing. The finish is brilliantly aesthetic while the machine remains incredibly durable.

#### Dynamic Flip Handles, Unlocking Refined Training

The innovative flip-adjustable handles not only adjust training distance to accommodate different body types but also enable subtle movement adjustments for more refined lower chest and triceps training. Handle surfaces feature special anti-slip material, ensuring stable grip throughout training for superior workout feel.

#### Stable Positioning for Precise Training

5-position seat adjustment perfectly accommodates users of all body types, with premium padding creating a comfortable seating experience for extended training sessions. The ankle foam roller effectively enhances body stability during training, ensuring every bit of force precisely targets the triceps.

#### Precision Weight Stack Engineering, Professional Training Assurance

Utilizing a high-density cast iron weight stack system with specialized black textured powder coating for premium feel. Special protective coating ensures wear and corrosion resistance, providing lasting durability for professional training. The weight distribution is precisely calibrated, with maximum weight reaching 125kg, allowing you to easily find that "perfect training weight" without compromising.
