

SA SELECTORIZED SERIES

SA019 - CALF RAISE

PRODUCT OVERVIEW

The professional-grade masterpiece for calf training. The 10-position adjustable, ergonomically designed shoulder pad perfectly accommodates users of all body types, providing comfortable support that allows users to focus purely on calf engagement. The stainless steel textured footplate delivers powerful friction, ensuring every calf raise remains perfectly stable.

SPECIFICATIONS & KEY FEATURES

Specifications

Dimension:	1178*1158*1656mm
Total Weight:	212kg
Weight Stack:	100kg
Max Weight Stack:	125kg

Product Features

Robust and Durable, Value-Optimized Choice

The main frame utilizes Q235A high-frequency cold-rolled steel, with 40*140mm square tubing and 50*100mm oval tubing working in harmony to ensure machine durability. Surface finishing employs electrostatic powder coating, passing over 800 hours of salt spray and impact testing. The finish is brilliantly aesthetic while the machine remains incredibly durable.

Stainless Steel Textured Footplate, Stability Guaranteed

The footplate features textured stainless steel construction, providing powerful friction for optimal force transfer efficiency. This ensures every calf raise remains perfectly stable, maximizing calf muscle engagement and training effect.

Comfortable Padding for Focused Calf Training

The shoulder pad features ergonomic design with premium high-density padding, delivering stable and comfortable support. The lower hammer-style handles further enhance body stability. This dual-support system helps users find the most solid calf engagement sensation.

Precision Weight Stack Engineering, Professional Training Assurance

Utilizing a high-density cast iron weight stack system with specialized black textured powder coating for premium feel. Special protective coating ensures wear and corrosion resistance, providing lasting durability for professional training. The weight distribution is precisely calibrated, with maximum weight reaching 125kg, allowing you to easily find that "perfect training weight" without compromising.
