

RE60 FREE WEIGHT SERIES**RE6020 - PREACHER BENCH****PRODUCT OVERVIEW**

The RE6020 is a professional preacher curl bench designed specifically for biceps training. Built with a solid frame and crafted to commercial standards, it is ideal for gyms and premium training facilities. The widened, ergonomically curved arm pad conforms to the upper arm and shoulder contours, providing stable and comfortable support for users of different builds. This ensures proper isolation of the biceps during training, helping users maintain optimal form and focus on target muscle engagement.

The extended safety bar has been precisely positioned for easy barbell handling, allowing smooth pickup and racking during curls while preventing accidental slips for added safety. The seat pad features a 10° ergonomic tilt that aligns naturally with the body's pelvic angle, enhancing stability and comfort throughout the workout. With seven height adjustment levels, it accommodates users of varying heights, ensuring proper positioning and an efficient, natural range of motion.

SPECIFICATIONS & KEY FEATURES

Specifications

Dimension:	1276*786*940mm
Net Weight:	60kg

Product Features

Curved Arm Support Pad

Wide, contoured pad aligns with the upper arm and shoulder curve, providing stable, comfortable support and better muscle isolation.
